Eric,
Pulling in John to conversation. He will be working with Mark to gin up flight lines to fly tomorrow (Friday). His cell is 513-675-4745

Kuda

Good Afternoon:

I am driving from Maryland to Niagara right now. Below is the last info I can find from John Cardarelli in April. I am fine with a flyover at the sites. We would just use as additional updated aerial information.

Thanks

Regards,

Eric

Subject: RE: WINGS 2016

Hi Mike,
Based on everything I know right now, R2 will NOT be charged for any of these sites. It's not clear if all three EPA sites will be surveyed yet or not. But it is my understanding that no costs will be incurred by R2.

The two sites near Niagara Falls are on our list of potential sites. I believe the Mt. Kisco, NY site is still on the list too, but I will confirm with Ashlee (via this email).

Mark Thomas is playing a new role within FRMAC for the WINGS exercise and will be working closely with Ashlee in choosing the sites to be surveyed during the exercise and which aircraft will be selected for the job. It could be ASPECT, DOE Helicopters, or a State aircraft. My guess is that ASPECT would be a likely candidate for the Niagara sites given it's remote location from our base of operations. I've cc'd him on this exchange since he'll be in a better situation than me to answer your questions. This is part of an exercise, so some info may not be readily available, but we recognize you need to coordinate with the sites so we'll make sure you get everything you need.

Mark or Ashlee,

Please chime in with any new information

I'm for it but defer to the OSC's since they have a better handle on what there addition data needs are. I would think it would be very helpful at our Trinity Cemetery site. I'm ccing Eric Daly on this to get his input.

Thanks for the offer.

Hey Joe- I spoke w/ Kuda and CMAD can conduct a fly over the Niagara sites on the flight from the WINGs exercise back to TX with no cost to the Region.

However the decision will have to be made ASAP. Kuda will reach out to Eric Daly to see if he wants this support.

I'm offering the above info FYI to advise you that Kuda will reach out to your OSC. Any help you could offer to expedite a decision that would be appreciated.

Mike
